

## CALL FOR APPLICATIONS TO FILL VACANCY FOR

### Senior Professional Officer – Electrical Engineer

Interested persons wishing to apply for this post are kindly requested to submit a full CV (including details of background and experience) and copies of qualifications relevant to the post to [recruitment.pg@project.green](mailto:recruitment.pg@project.green)

## JOB DESCRIPTION & PROFILE

Title	Senior Professional Officer - Electrical Engineer
-------	---

### Job Description

#### Overview

#### About the Quality & Development Office:

The Quality Office for Green Open Spaces, Parks, and Gardens plays a crucial role in ensuring the maintenance and improving the quality standards within these outdoor environments. They are responsible for monitoring, assessing, and enforcing quality control measures to preserve the aesthetic appeal, safety, and functionality of these green spaces.

#### About the Role:

As an Electrical Engineer, your tasks will encompass:

- I. Collaborating with landscape architects in the planning and implementation of green infrastructure projects to seamlessly integrate electrical components and create preliminary engineering drawings, for the project's electrical needs.  
All electrical designs shall be based on the concept of energy efficiency with the intent of minimizing energy consumption, operating costs, energy wastage, and contributing towards carbon neutrality through renewable energy sources.
- II. Creating final engineering layouts for the Electrical services of any works contract, including preparing all the necessary specifications, estimates, and bill of quantities for all the electrical engineering services aspects of the project. You will also assist in the tendering process to engage a Works Contractor for the on-site services execution.
- III. Overseeing the electrical engineering services of projects until completion, including certifying works progress through interim and final payment certificates.
- IV. Conducting energy audits to identify areas for improvement and proposing energy – saving solutions to reduce the environmental impact of park operations.

- V. Providing technical expertise on electrical components for outdoor recreational equipment offering guidance on the selection, installation, and maintenance of electrical systems for park amenities like playgrounds and sports facilities.
- VI. Supporting the organisation`s sustainability goals by proposing and implementing innovative technologies and practices that align with the organization`s sustainability and environmental conservation commitment.
- VII. Maintaining and troubleshooting electrical systems in green spaces to ensure optimal performance through regular inspections, repairs, and upgrades to uphold reliable operation and minimise downtime.

### About You:

Project Green is looking for an Electrical Engineer of the highest personal and professional integrity, principle and knowledge, while creating a positive atmosphere within the Team.

The role requires the possession of a minimum of a master`s degree in Electrical Engineering (MQF Level 7) or an equivalent recognised qualification as approved by the MFHEA, a warrant in Electrical Engineering, and at least twenty-four (24) months of progressive experience in Electrical Engineering projects.

We are still interested in your candidacy even if you do not yet possess a warrant. However, if selected, your appointment will be conditional upon either obtaining and submitting a copy of your warrant within twelve (12) months from your appointment date for this role or providing proof of your warrant application submitted to the *Chamber of Engineers*, and obtaining the warrant thereafter.

You will also need to be able to communicate clearly in both Maltese and English, be in possession of a clean police conduct not older than six months from the date of this application and a Driving License Category B.

### Other Information

Project Green is an Equal Opportunities Employer as certified by the NCPE (National Commission for the Protection of Equality) and is committed to a policy of equal opportunity in all aspects of employment and will endeavour to avoid any form of discrimination in its recruitment procedures.

The Agency reserves the right to withdraw this call at any time and not select any of the Candidates.

It is the responsibility of applicants in possession of qualifications awarded by Universities and other similar institutions outside Malta to produce a recognition statement on comparability of qualifications issued by the Malta Qualifications Recognition Information Centre (MQRIC). Applicants should do so preferably at the application stage or otherwise at the preliminary interview should an applicant be selected for such an interview. Details can be obtained by accessing the National Commission for Further and Higher Education website on [www.ncfhe.gov.mt](http://www.ncfhe.gov.mt) under MQRIC heading.

The Agency shall ensure that any processing of personal data is in accordance with Regulation (EU) 2016/679 (General Data Protection Regulation), the Data Protection Act (Chapter 586 of the Laws of

Malta) and any other relevant European Union and national law. For further details, you may refer to the Data Protection Policy on Project Green's webpage [project.green](https://project.green).

Candidates are to note that the submission of any false statement/s or omission, even if unintended, may lead to the cancellation of their application and may render the candidate's appointment liable to termination.

Furthermore, please note that candidates may be asked to submit any documentation in support of the information provided, including but not limited to, proof of qualifications and Police Conduct Certificates.
